

# JP-D

## CONCENTRATED

**JP-D** is a 100% safe, water-based and biodegradable odor control agent. **JP-D** will neutralize and eliminate organic and inorganic odors and is suitable for industrial, institutional and domestic use. **JP-D** controls odor caused by outdoor garbage, collection trucks, incineration plants, waste water sludge, and sewers. **JP-D** will also eliminate odors from restaurant garbage, portable toilets, locker rooms, restrooms, buses and trains, and effectively treat bathrooms, carpets, and odors caused by pets, dead rodents, skunks, mildew and bacteria.

**Directions:** **JP-D** is a concentrated product that can be diluted up to 100:1 in water (100 parts **JP-D** to 1 part water) depending on the severity of the odor and the weather conditions (humidity and temperature). The best method to apply **JP-D** is by uniformly spraying it over the area or space to be treated. For use in summer or under conditions of high humidity and temperature dilute up to 5:1 in water. For use in winter dilute up to 10:1 in water. For industrial waste, dump trucks, and waste water sludge, or in case of very strong odors caused by bacteria, skunks, dead rodents, or organic matter, use **JP-D** diluted 1:1 in water. To spray on outdoor garbage, carpets, draperies, locker rooms, showers, toilets, urinals, and portable toilets, dilute up to 10:1 in water .

**Health and Safety:** **JP-D** is a biodegradable, non-hazardous product. In case of ingestion immediately swallow a large amount of water. Consult a physician . Avoid contact with eyes. In case of contact flush eyes with plenty of water for at least 15 minutes. If irritation persists call physician.

**KEEP OUT OF THE REACH OF CHILDREN**  
See MSDS for more Health & Safety Information
