

# ENERGY PLUS RED

## CONCENTRATED BIODEGRADABLE GENERAL PURPOSE CLEANER NON-CAUSTIC NON-HAZARDOUS NON-FLAMMABLE NO-PHOSPHATES

**Energy Plus Red** is a concentrated, non-hazardous, non-caustic, biodegradable and versatile all-purpose cleaner with applications from heavy oils in industrial plants to household laundry. It dissolves and removes grease, oil, carbon, ink, dirt, mildew, wax, etc. Use **Energy Plus Red** on tools, work clothes, production equipment, machinery, floors, bicycles, carpets, cars, trucks, and any painted surface. **Energy Plus Red** is suitable as a dip tank cleaner or as a steam-cleaning compound replacing caustic soda. It is an economic and safe replacement for petroleum distillates and chlorinated solvents. **Energy Plus Red** is an environmentally safe product, efficiently cleans oil and grease, is compatible with personnel, and does not adversely impact effluent treatment plants. It is suitable for use in food preparation areas to clean all types of surfaces.

**Directions:** **Energy Plus Red** can be used with cold or hot water. The dilution ratios should be adjusted according to the degree of grime and grease deposits.

**Restaurant Applications:** For cleaning hoods, mix 3 parts water to 1 part **Energy Plus Red** in a spray bottle. Apply to surface and wipe off with damp cloth or wash down. For mopping floors or walls, mix 10 to 1. Apply to surface and use a clean mop to remove residue. On walls, wipe off with a damp cloth. To wash dishes, mix 15 to 1 or if utilizing a dishwasher use for the first wash cycle. For greasy pots and pans, mix 2 to 1. Use steel wool pad or abrasive scour pad. For general or light duty cleaning, mix 32 to 1 in a spray bottle. For laundry purposes, use full strength as a spot treater or add 4 oz per wash load.

**Appearance:** Clear red liquid with mild odor.

**pH:** 10.50 ± 0.5    **ppg:** 8.40

**Health and Safety:** Unlike high pH cleaners, **Energy Plus Red** is safe to wash hands with and does not leave white deposits or residues. For large jobs, use gloves to minimize skin contact. **Energy Plus Red's** oil/grease cleaning properties will remove the natural oils in skin.
