ENERGY PLUS RED

Large industrial and institutional users have used **Energy Plus Red** for over twenty years. **Energy Plus Red** is a concentrated general purpose cleaner that will emulsify and dissolve grease and oil, loosen stubborn, stains and leave all surfaces sparkling with no harm to hands. **Energy Plus Red** is currently used in oil refineries for general maintenance and spill clean up. Can be used in a hot or cold application and is suitable as a dip tank cleaner or as a steam cleaning compound replacing caustic soda. It is an economic and safe replacement for petroleum distillates and chlorinated solvents. **Energy Plus Red** is an environmentally safe product that efficiently cleans oil and grease, is compatible with personnel, and does not adversely impact Effluent Treatment Plants. It was designed and made for industrial plants and oil refineries and we are now making it available to commercial customers.

Industrial: Currently used in oil refineries for general maintenance and spill clean up. Can be used in a hot or cold application and is suitable as a dip tank cleaner or as a steam cleaning compound replacing caustic soda. It is an economic and safe replacement for petroleum distillates and chlorinated solvents. **Energy Plus Red** is an environmentally safe product that efficiently cleans oil and grease, is compatible with personnel, and does not adversely impact Effluent Treatment Plants.

Food Service Industry: **Energy Plus Red** is currently used in the restaurant industry as a versatile cleaner that can be used on a multitude of surfaces – hoods, stoves, ovens, refrigerators, freezers, and counter tops. It is also great for mopping floors, washing dishes and cleaning restrooms. It is safe on all surfaces.

Commercial: We are now bringing **Energy Plus Red** to the commercial industry by offering 1 gallon and 5 gallon containers. It dissolves and removes grease, heavy oil, tar, carbon, ink, dirt, mildew etc. Use **Energy Plus Red** on tools, work clothes, production equipment, machinery, floors, bicycles, carpets, cars, trucks, and any painted surface.

Why buy several different products when you can just purchase **Energy Plus Red?**

The dilution ratios should be adjusted according to the degree of grime and grease deposits. **Energy Plus Red** is highly concentrated so a little goes a long way. **Energy Plus Red** comes in 1 gallon, 5 gallon, 55 gallon drums and totes.

“Energy Plus Red is an environmentally safe product that efficiently cleans oil and grease...”
